WORK EXPERIENCE

SEPT. 2026 – PRESENT (FT)

NDA Protected
Software Engineering Intern

Developing an application that monitors third-party software for newly available updates. Conducting applied research into update publication channels, detection methods, and the reliability of update information. (to be updated)

SEPT 2025 – JUNE 2026 (PT)

Amsterdam Universety of Applied Science
Studentmentor

In this role, I support first-year students with their programming challenges. I help them understand key programming concepts, debug their code, and apply best practices in software development. Beyond technical guidance, I encourage independent problem-solving while also fostering collaboration through peer-to-peer learning and group sessions. This position requires patience, strong communication skills, and the ability to explain complex technical topics in an accessible way..

OCT 2022 – 2024 (FT)

KilicSecurityServices
Receptionist

By manning the front desk, I facilitated the daily activities of building staff in multiple ways. I greeted employees entering the building, granted building access to staff and visitors, answered facility-related questions, and denied building access to unauthorized individuals. Finally, I acted as a first responder in both medical and personal safety emergencies.

EDUCATION

2024 – PRESENT **Bachelor of Science**
Information and Communication Technology (Software Engineering)
Amsterdam University of Applied Sciences

Admission via 21+ Higher Education Admission Test (27 Jul 2025) and Advanced Mathematics/Calculus Programme (12 Jul 2024)

2011 – 2015 **Secondary Education**
VMBO-Kaderberoepsgerichte Leerweg
Het Streek, Zandlaan, Ede

Pre-vocational Secondary Education, middle track, The Netherlands
Service & Business Studies

LANGUAGES

- Nederlands - Native profciency
- English - Professional Proficiency

SKILLS

TypeScript
Trainee Junior Medior

Java
Trainee Junior Medior

Spring Boot
Trainee Junior Medior

React
Trainee Junior Medior

Vue.js
Trainee Junior Medior

Engineering & Research Competencies

- Formulating and analysing software problems before implementation.
- Comparing frameworks and libraries based on maintainability and performance.
- Applying design patterns and architectural principles (DDD, layered design).
- Making design decisions based on user stories, data, and team feedback.
- Documenting and reflecting on development choices using the TMC-cycle.
